January 11, 1996

Mr. Robert Stober  
4436 North 4th Ave.  
San Bernadino, CA 92407

Dear Mr. Stober:

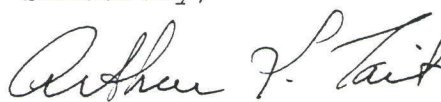

Our geologist has been inspecting the Nip & Tuck unpatented mining claim since your exploration notice was submitted in August 1993. It appears that all work done on the claim since the notice was received falls under the category of casual use except for the road work which was completed in 1993.

A flash flood following a fire in the area of the claim completely washed out the road work which you performed. There is consequently no reclamation required for the road construction.

According to our files, a small miners maintenance fee waiver was not filed in August 1995 and the claim will be determined null and void. Consequently, this case file may be closed. This letter serves to close case file UTU-71724. Any future work on public lands which would require mechanized equipment or blasting must be submitted as a new mining or exploration notice or plan of operation.

Please contact Gina Pack at this office if you have any questions concerning this action.

Sincerely,

  
Arthur L. Tait  
Area Manager
